Encrypted Backup System
ABS

Disaster Recovery from Hypertec

Full Disk Encryption by CE-Secure

The ABS-Secure is the latest in the CMS Products line of external USB 2.0 encrypted disk solutions, with capacities beginning at 80GB. The unit utilizes CMS Products CE-Secure Full Disk Encryption software for complete management of the encryption environment. Weighing only seven ounces, the ABS-Secure is bus powered for transportability and is ultra-rugged with the inclusion of the CMS DataGuard shock absorbing wrapper.

The ABS-Secure is ready to use right from the box. As the entire disk is protected with AES 256-bit encryption, users can be confident that all data on the ABS-Secure is safe and can be accessed only by its rightful owner.

The ABS-Secure includes CMS Products BounceBack Express Version 8.0 backup and restore software. Recently released, Express 8.0 is the successor to the earlier award-winning BounceBack software. Sporting a new, straightforward and intuitive interface, Express 8.0 is easy to install and use. With powerful new features such as Continuous Data Protection and Multi-Destination backup paths, Express 8.0 is the perfect complement for implementing data backup to the encrypted ABS-Secure.

Features:

- AES 256 Bit "on-the-fly" Encryption/Decryption
- Full Disk Encryption by CE-Secure
- Pre-encrypted for easy operation
- Transportable from system to system
- Bus Powered, USB 2.0 interface
- Shock protected for physical data protection
- Three-year warranty
- Includes BounceBack Express Backup & Restore
- Includes copy2go Xpress Multimedia software
